### CALL-UP Rules

Moon Township Little League Baseball shall maintain a farm pool in which each league, Minor, Little, and Pony divisions, will have a designated pool of players to be called up from the next lower division to willingly participate when teams face a shortage of rostered players. Each league Commissioner shall create this list. This list shall be distributed to all Managers and participants prior to the opening day of the regular season.

1. Only senior players in each division are eligible for the farm pool. (Exception: The Call-up list from Pony to Colt may include any player in Pony League)
2. Only listed farm players may be utilized.
3. Farm players should only be utilized when the Major team *does not* have enough roster players for each defensive position in their division (i.e. 10 for Minor - 9 for Little and Pony).
4. The maximum number of farm players allowable for any one game, per team, may not exceed the maximum number of defensive outfield positions permitted in that Major's division (i.e., 4 for Minor - 3 for Little and Pony).
5. Farm players may only play in an outfield defensive position, unless the team has fewer than 6 rostered players. In the event that a call-up must play the infield, he may not play either battery position.
6. Farm players must bat after all roster players in the order.
7. Farm players may not play more innings than any roster player in that game except for injury, illness, tardiness, leaving early, violation of team rules, or ejection.
8. If multiple farm players are utilized, their playing time must be balanced and split between them as evenly as possible. (Roster players must play the entire game except for provision #7)
9. Once a farm player is called up, he **MUST** play in the game even if the team has enough players to field a full team.
10. Farm players, scheduled to play at the same time as the Major team, may not be utilized.
11. The opposing Manager must be notified prior to the start of the game when a farm player(s) is being utilized.
12. Violations of these rules may result in a forfeit of that game.
13. The Chairman of the Rules Committee shall resolve any dispute or questions concerning these rules. His ruling is final and may not be appealed.

## 2024 Rules

### DRAFT Rules

1. The purpose of the draft is to select teams in an equitable manner, giving every manager a fair chance to select a competitive team. These rules will be reviewed with the managers before the draft. The League Commissioner will decide on any situations not specifically covered by these rules. Issues raised before or during the draft will be decided upon in a manner specified by the Commissioner. The Commissioner's decisions will be final and there will be no appeals. There will actually be two drafts for each league. One for the older age group players in the league and another for players in the younger age group.
2. Before the draft, the league coaches should come to an agreement as to the round in which each manager's child will be selected in their draft. If a manager's child is rated as being in the 1<sup>st</sup> or 2<sup>nd</sup> round of the draft, the managers will also come to an agreement as to the relative position within the round that the manager's child will be drafted. The manager's child should be placed in the 1<sup>st</sup> third, 2<sup>nd</sup> third, or 3<sup>rd</sup> third of the round in which he will be drafted. Once it's decided in which round and which third of the round that the player will be drafted, the manager will pick at random from the draft numbers in that third of the designated round. That will determine his draft positions for the entire draft. Please be objective in your assessments. The round and if necessary the position within the round will be determined by a majority vote of the managers. The league Commissioner will cast the deciding vote in the event of a tie vote. A manager's child will be his team's pick in the agreed upon round and possibly in the determined position within the round if the player is rated as being in the first or second round. The commissioner and managers should use the following guidelines to help establish the round in which a manager's child should be selected. "A" team tournament players from the previous year would normally be in the first round. "B" team tournament players from the previous year would normally be rated in the second round. Tournament team rosters from the previous year should be supplied before the draft to aid in this assessment. Tryout performance could also be used to help establish a round.
3. All siblings will be listed before the draft. If a team selects a player who has a sibling/s in the league, any other siblings will also be assigned as draft picks to that team. The selection round of the other siblings will have been determined by the ratings agreed upon under this provision. If two or more siblings are in the same draft age group, and are rated as being in the same round of the draft, the team selecting the first sibling will be assigned the second in the next round of that age group. If there are siblings remaining undrafted before the last pick of the next-to-last round, the Commissioner will assign one of the siblings to the team with the last pick in the next-to-last round and the other will be that team's first pick of the last round. This is to assure that a team doesn't have too many players. If a player is drafted in a position that would place their sibling in a round later than which they were rated, the sibling will be assigned as that team's next draft pick.

## 2024 Rules

4. Any children of team sponsors will be listed before the draft. A manager may only select one child of a Team Sponsor, unless there is a sibling (see Rule 3). After selecting the child or children of a team sponsor, a manager may not draft the child of another Team Sponsor unless the board gives its approval prior to the draft. This is to eliminate any potential problems with the sponsors that might be caused by their child playing on a team other than the one that they had sponsored. When you select the child of a Team Sponsor your team will be assigned that sponsor for the year. One exception to this would be if a sponsor is only sponsoring one team and they have two or more children playing in different leagues. This rule will only apply to the sponsor's child who is playing in the league of the sponsored team. If a sponsor has 2 or more children in either draft age group who are not siblings in the draft, the sponsor may designate only one of the players to be treated as a sponsor's child under the terms of this rule. If by the time of the draft, the sponsor has not designated which child is to be treated as the sponsor's child, the commissioner will designate which child is to be considered the sponsor's child during the draft.  
All other players who were under consideration to be a sponsor's child for that sponsor will be eligible to be drafted by any team in any round.
5. A manager should not assume that he has a right to any player other than his own child or children. The Commissioner will not honor any player requests to play for a specific manager. Every player not already drafted, except a manager's child (see Rule 2), a sibling of an already drafted player (see Rule 3), or a child of a Team Sponsor, if you have previously drafted one (see Rule 4), is eligible to be drafted by any manager. If you want a particular child, draft him. Likewise, if you want a player because you want his father to be your assistant, draft the player. Remember that the purpose of the draft is to form competitive teams.
6. If a team's board-appointed manager is present for the draft, no prospective assistant coaches will be permitted to attend the actual draft.
7. If a manager is unable to attend the draft, he may send one substitute to draft in his place or he may have the League Commissioner make his selections. If the substitute has any children in the draft, they will not be treated as a manager's child, and they are eligible to be drafted by any team in any round. The substitute will be considered the acting manager and may participate in any votes held before, during, or after the draft.
8. The selection order will be reversed at the beginning of each succeeding round. The older age player draft will continue in this manner until there are no longer enough older age group players to allow for a complete round or all have been selected.
9. Any older age group players not drafted during their draft due to an incomplete last round will be added to the draft pool of the younger age group and may be drafted in any round of the younger age group draft.

## 2024 Rules

10. The draft order for the first round of the younger age group draft will be the same as in the second round of the older age group draft. This will be the case no matter what draft order was used in the last complete round of the older age group.
11. The draft order in the younger age group draft will also reverse at the beginning of each succeeding round as in the older age group draft.
12. The draft will continue in this manner until a complete final round in the younger age group is not possible or all players have been drafted in complete rounds. If all of the players have been selected in complete rounds, the draft will end at that point. When there are not enough players to allow for a complete round of the younger age players, there will be a random re-selection of numbers to reset the draft order for the last incomplete round. Number 1 will draft 1<sup>st</sup>, 2 2<sup>nd</sup>, and so on until all unselected players have been drafted, and no manager may pass on his selection in any round.
13. The league Commissioner will assign any players registering after the draft to the teams using the following method. The players should be assigned to their teams in the order in which they registered with the first player assigned to the team that would have picked next in the draft had there been more players in the draft. Additional players will be assigned in the same manner using the draft order that was used for the last round of the younger age draft until all players have been assigned to a team. The goal of the Commissioner will be to keep the number of players per team as similar as possible. Therefore, the commissioner may assign players without regard to the draft order in the event of players dropping out of the league. Once all rosters have been made equal in the number of players, the commissioner will again use the draft order in assigning players. Age will not be a factor in determining to which team a late signing player is assigned.
14. There will be no trading of draft positions before, during, or after the draft.
15. To correct any errors in drafting or registration, the Commissioner will be responsible for making roster changes.
16. Once all of the three-part official rosters have been completed and given to the Commissioner, the rosters will be considered final.
17. Managers should contact their players within five days of the draft. Let the players know which team they are playing for as soon as possible.

### Draft Rules Clarifications

#### Rule 2

Assume a 10-team draft. A manager has a child rated as a high 1<sup>st</sup>-round draft pick in the younger age group. He should pick at random from the bottom third of the picks in the 1<sup>st</sup> round of the older age group. In this case, he would pick from picks 8, 9, or 10 to establish his draft position within the 1<sup>st</sup> round of the older age draft. He picks 8. He would then be drafting his child in the corresponding position in the younger age draft. In this case, he would draft his child with the 3<sup>rd</sup> pick of the 1<sup>st</sup> round of the younger age draft. The following is a chart showing the breakdowns in thirds of the rounds based on the number of teams in the league.

- 7 – 1<sup>st</sup> Third, picks 1-3, 2<sup>nd</sup> Third, picks 4-5, 3<sup>rd</sup> Third, picks 6-7
- 8 – 1<sup>st</sup> Third, picks 1-3, 2<sup>nd</sup> Third, picks 4-6, 3<sup>rd</sup> Third, picks 7-8
- 9 – 1<sup>st</sup> Third, picks 1-3, 2<sup>nd</sup> Third, picks 4-6, 3<sup>rd</sup> Third, picks 7-9
- 10 – 1<sup>st</sup> Third, picks 1-4, 2<sup>nd</sup> Third, picks 5-7, 3<sup>rd</sup> Third, picks 8-10
- 11 – 1<sup>st</sup> Third, picks 1-4, 2<sup>nd</sup> Third, 5-8, 3<sup>rd</sup> Third, picks 9-11

## 2024 Rules

### Rule 4

An 11-yr.-old brother is selected in the 2<sup>nd</sup> round, and his twin brother is also rated as a 2<sup>nd</sup> round player. The second brother would be designated as that manager's 3<sup>rd</sup>-round pick in the 11-year-old draft.

A 12-year-old sibling is rated as a 1<sup>st</sup>-round pick and his 11-year-old sibling is rated as a 6<sup>th</sup>-round pick. The team selecting the older sibling would be assigned the younger one as their 6<sup>th</sup>-round pick in the 11-year-old draft.

A 12-year-old sibling is rated as a 3<sup>rd</sup>-round pick and his 11-year-old sibling is rated as a 1<sup>st</sup>-round pick. The team selecting the older sibling would be assigned the younger one as their 1<sup>st</sup>-round pick in the 11-year-old draft.

The draft comes to the last pick in the 6<sup>th</sup> round of what will be a 7-round draft, and there is a set of brothers remaining undrafted. Team A has the last pick in the 6<sup>th</sup> round and the first pick in the 7<sup>th</sup> round. The Commissioner will assign one of the brothers as Team A's 6<sup>th</sup> round pick and the other as TEAM A's 7<sup>th</sup> round pick.

A pair of 11-year-old brothers both rated as 3<sup>rd</sup>-round players remain undrafted until the 5<sup>th</sup> round. The second brother will be assigned as the team's 6<sup>th</sup>-round pick.

### Rule 5

A sponsor's team is in the Little (11 & 12 Yr.-old) League. He has a son playing in the Little League and one in the Minor (9 & 10 Yr.-old) League. Rule 5 would only apply to the child in the Little League. The child in the Minor League would be eligible to be drafted by any team with no restrictions.

Smith & Jones, Inc. are sponsoring a team. It's a business partnership and both owners of the business have a child that will be playing in the Minor League this year. The sponsor will have to designate which of the children is to be considered the "Sponsor's Child" during the draft. The other child will be eligible to be drafted by any team in any round.

### Rule 10

For example, the team selecting first in the first round will select last in the second round, then first again in the third round, and so on until there are no longer enough older age group players to allow for a complete round or all have been selected.

### Rule 12

Assume a six round 12-year-old draft. Team A had the 1<sup>st</sup> pick in the 1<sup>st</sup>, 3<sup>rd</sup>, and 5<sup>th</sup> rounds, and the last pick in the 2<sup>nd</sup>, 4<sup>th</sup>, and 6<sup>th</sup> rounds. The first round of the 11-year-old draft would follow the same order as the 2<sup>nd</sup> round of the 12-year-old draft. Therefore, team A would select last in the 1<sup>st</sup> round of the 11-year-old draft.

## 2024 Rules

### Rule 14

Assume a 12-team league. After the 5<sup>th</sup> round of the younger age draft there are 4 unselected players. At that point a new draft order will be determined by randomly selecting numbers from 1 to 12. The managers who select numbers 1, 2, 3, and 4 will select the 4 remaining players.

### Rule 15

For example, assume a 10-team league. The team drafting eighth has the last pick in the draft, the first late sign-up will be assigned to the team with the ninth pick. The second player will be assigned to the team that had the tenth pick, which is the last pick of the round. The third player will be assigned to the team that would have had the first pick in the next round. This process would continue until all players are assigned to a team.

Assume a 10-team league. The last round of the draft ended after the fifth pick. Three players register after the draft. The first player that registered would be assigned to the team that would have had the sixth pick in the last round. The second player would be assigned to the team with the seventh pick, and the third would be assigned to the team with the eighth pick. This same process would continue until all registered players have been assigned to teams.

Assume a 12-team league where all teams have 12 players. The draft ended after 5 rounds. Team 12 would normally have the next pick (the first pick in the 6<sup>th</sup> round). However, a player quits team 4 bringing their roster to 11 players. The commissioner will disregard the draft order and assign the player to team 4 so every team will again have the same number of players on their rosters. Any other late signups will then be assigned using the draft order, so Team 12 would receive the next late-signing player and so on unless other players quit which would unbalance the rosters.

## 2024 Rules

### T-BALL Rules

**The Official Regulations and Rules of Little League Baseball govern all rules for the year with the following exceptions:**

#### **BATTING/BASERUNNING**

- All batters shall hit off the "TEE". There shall be no pitching to batters. The "TEE" shall be placed in front of home plate.
- A continuous batting order shall be used with the final batter running all of the bases and the defensive players remaining in their defensive positions until the bases are clear of all runners.
- Managers will reverse the batting order each inning (last batter from previous inning will lead-off the next inning. The first batter from the previous inning will hit last the next inning).
- The game will end at the time limit regardless if all batters on a team have batted an equal number of times.
- All batters and base runners shall wear hard-style batting helmets.
- No stealing is permitted.
- No lead-offs are permitted.
- No bunting is permitted.
- In the event of an overthrow at 1st base, runners shall not advance.
- All infield hits will stop with a one base advancement. Outfield hits can advance to second at their own peril. Base runners must stop after advancing two (2) bases when the batter advances to second.
- Even if a batter or base-runner is put out by a defensive play, they shall be allowed to remain on base. They will be allowed to occupy the base to which they were going toward when they were put out.
- Coaches may stop the game to correct a batting stance.
- No on-deck batting is permitted. Managers are responsible to ensure all players are in the dugout unless it is their turn to bat. No bats are permitted in the dugout or in the hands of any player except the batter.
- Little League International has banned the use of unapproved composite barrel bats. It will be the responsibility of each manager to ensure that no player uses an unapproved bat in game or at practice. If a player uses an unapproved bat in a game, the bat will be removed from the game and the player and manager will each be given a season warning not to use it again. A second offense could result in suspension. If a player reaches base and his bat is determined to be unapproved BEFORE a pitch is thrown to the next batter, the player will return to the plate with the same count he had prior to reaching base and all runners will return to the base they occupied prior to the pitch. The pitch delivered at the time will still count for the pitcher's official pitch count. Bat must have a USA sticker.

#### **DEFENSIVE PLAY**

- The player who is fielding in the pitching position must wear a protective heart guard vest.
- Coaches must rotate infield and outfield positions. Positions should be rotated for every game and during each game.
- The defensive team shall consist of the entire team.
- No defensive player can run down a runner from the pitcher's mound or the outfield. He/she must throw the ball to the proper base or to the pitcher's circle.

## 2024 Rules

- Two (2) or three (3) defensive coaches shall be permitted on the field. Three (3) offensive coaches shall coach 1st and 3rd bases and home plate.

- All games must be played as scheduled except when functions of the Moon Area School District interfere.

## 2024 Rules

### MODIFIED T-BALL Rules

The Official Regulations and Rules of Little League Baseball govern all rules for the year with the following exceptions:

#### BATTING/BASERUNNING

- Roster batting is required. If a player arrives after the start of the game, that player will be placed at the bottom of the order.
- **All batters and base runners shall wear hard-style batting helmets**
- The batter may be thrown six (6) pitches. If the batter has not put the ball in play after 6 pitches, a TEE shall be placed on the plate and the batter shall hit the ball off of the TEE. It is very important to adhere to this pitch limit due to time concerns.
- A 1/2 inning shall be over after three (3) outs or when the offensive team has batted around.
- The game will end at the time limit regardless if all batters on a team have batted an equal number of times.
- Lines shall be placed 2/3 of the way between first and second base, between second and third base, and between third base and home plate. Once a ball is in the control of an infielder who has at least one foot in the infield dirt, this will be considered 'infield control'. At the time of infield control, runners may continue to advance to the base they were heading to and play is not dead. The defense may attempt a play on any advancing runner. Upon completion of that play the ball will be ruled dead. Any runner that had not reached the 2/3 line at the time of infield control must return to the previous base. If a runner was tagged out, he is out. Infield control does not apply on plays made first by an infielder. *See examples in the clarification section below.*
- Runners may not advance on an overthrow.
- No stealing is permitted.
- No lead-offs are permitted.
- No bunting is permitted.
- No on-deck batting is permitted. Managers are responsible to ensure all players are in the dugout unless it is their turn to bat. No bats are permitted in the dugout or in the hands of any player except the batter.
- Little League International has banned the use of unapproved composite barrel bats. The pitch delivered at the time will still count for the pitcher's official pitch count. Bat must have a USA sticker.

#### SUBSTITUTION/DEFENSIVE PLAY

- The player who is fielding in the pitching position must wear a protective heart guard vest.
- The defensive team shall consist of the entire team.
- No defensive player can run down a runner from the pitcher's mound or the outfield. He/she must throw the ball to the proper base or to the pitcher's circle.

An inning is defined as being in the infield/outfield for all 3 outs of the inning or the run rule is reached. You may only field a pitcher, catcher, 1<sup>st</sup> baseman, 2<sup>nd</sup> baseman, shortstop, and 3<sup>rd</sup> baseman in the infield. The remainder of the roster may play in the outfield.
- Two (2) or three (3) defensive coaches shall be permitted on the field. Three (3) offensive coaches shall coach 1st and 3rd bases and home plate.

### REGULAR SEASON

- **As per Little League rule, the use of tobacco and alcoholic beverages in any form are prohibited on the playing field, and in the dugout or bench area.**
- All games must be played as scheduled except when functions of the Moon Area School District interfere.
- It will be a decision of both managers as to calling a game due to weather, visibility, lightning, and any other unsafe playing conditions.

- **All batters and base runners shall wear hard-style batting helmets**

- A 1/2 inning shall be over after three (3) outs or when the ball becomes dead after five (5) or more runs are scored, whichever comes first. *See the example in the clarification section below.*
- Lines shall be placed 2/3 of the way between first and second base, between second and third base, and between third base and home plate. Once a ball is in the control of an infielder who has at least one foot in the infield dirt, this will be considered 'infield control'. At the time of infield control, runners may continue to advance to the base they were heading to and play is not dead. The defense may attempt a play on any advancing runner. Upon completion of that play the ball will be rules dead. Any runner that had not reached the 2/3 line a the time of infield control must return to the previous base. If a runner was tagged out, he is out. Infield control does not apply on plays made first by an infielder. *See examples in the clarification section below.*

- No on-deck batting is permitted. Managers are responsible to ensure all players are in the dugout unless it is their turn to bat. No bats are permitted in the dugout or in the hands of any player except the batter.
- Little League International has banned the use of unapproved composite barrel bats. It will be the responsibility of each manager to ensure that no player uses an unapproved bat in game or at practice. If a player uses an unapproved bat in a game, the bat will be removed from the game and the player and manager will each be given a season warning not to use it again. A second offense could result in suspension. If a player reaches base and his bat is determined to be unapproved BEFORE a pitch is thrown to the next batter, the player will return to the plate with the same count he had prior to reaching base and all runners will return to the base they occupied prior to the pitch. The pitch delivered at the time will still count for the pitcher's official pitch count. Bat must have a USA sticker.

#### SUBSTITUTION/DEFENSIVE PLAY

- The player who is fielding in the pitching position must wear a protective heart guard vest.
- Each player must play a minimum of three (3) innings in the infield. An inning is defined as being in the infield/outfield for all 3 outs of the inning or the run rule is reached. You may only field a pitcher, catcher, 1<sup>st</sup> baseman, 2<sup>nd</sup> baseman, shortstop, and 3<sup>rd</sup> baseman in the infield. The remainder of the roster may play in the outfield. ## 2024 Rules

### RULES CLARIFICATIONS

- 5-Run Rule Example: Bases loaded one out. 4 runs have already scored. Batter hits a single to center. The runner on third scores the 5<sup>th</sup> run of the inning. The other runners may continue to run until they either score or are put out. Play should continue until the ball becomes dead or the 3<sup>rd</sup> out of the inning is recorded. All runs scoring before the ball becomes dead or the 3<sup>rd</sup> out being recorded will count. So more than 5 runs can score in an inning. Also, if the ball becomes dead because of an overthrow into a dead ball area or obstruction, any bases that are to be awarded shall also be awarded.
- Time limit rules example: A game is scheduled at 6:00PM with a game following at 8:30. For the early game, no inning is allowed to start after 8:00PM.
